

## Animal Physiologist Faculty Position Opening

The Department of Biology at the University of Wisconsin Oshkosh invites applications for an assistant professor position beginning September 2024, contributing primarily to the Oshkosh campus, with the possibility of contributing to both campuses. This tenure-track faculty position will involve teaching courses in Introductory Biology, Human Physiology, Animal Physiology and an upper-level physiology elective in the candidates area of expertise. Our teaching expectations include the ability to teach in multiple modalities such as online (synchronous or asynchronous) and hybrid courses, due to the changing needs of our students. The successful candidate will pursue an active research program, involving undergraduate and MS students, perform campus and community service, service to the profession, as well as be given the opportunity to participate in department and campus governance. Submit a letter of application, brief statements of teaching philosophy and research or professional development plans, CV, electronic copies of a maximum of 3 publications, a list of 3 professional references, as well as official transcripts from all post-secondary institutions attended. These documents can be uploaded via the “apply now” button associated with the posting for this position on the Careers at UWO webpage. (<https://careers.uwosh.edu/cw/en-us/job/501002/assistant-professor>). At least one reference should come from the candidate’s current institution. UW System requires a criminal background check for successful candidates.

A regional comprehensive university committed to the teacher/scholar model; the University of Wisconsin Oshkosh is part of the robust Universities of Wisconsin system - one of the largest systems of public higher education in the country. UW Oshkosh proudly serves the northeast Fox valley region as the third largest university in Wisconsin with an annual on- and off-campus enrollment of nearly 13,000 spanning two world-shaping campuses. The Fox Valley offers a nice combination of amenities and relatively low cost of living and is within driving distance of Milwaukee, Madison, Chicago, and Minneapolis-St. Paul. An emphasis in teaching excellence is the hallmark of all Universities of Wisconsin campuses. We are committed to delivering a high quality education and a strong foundation for those who wish to pursue professional, occupational and advanced academic degrees. Our students are a mix of traditional and non -traditional age, including many first generational college students. The University of Wisconsin Oshkosh is an affirmative action/equal opportunity employer. The Biology Department is one of the largest on campus and manages two AAALAC-accredited animal care facilities including two hibernacula. The Department currently includes 15 faculty members and several instructional academic staff specializing in a variety of disciplines. For additional information, see the departmental web page at: <https://uwosh.edu/biology/> and the official job posting at the link above. Applications must be received by March 15, 2024, for full consideration.
